

has partnered with School is Easy to offer an exciting opportunity for you and our club!

partner logo

Our children are still facing the academic challenges caused by the pandemic. Balancing their academic, emotional and physical needs now can be challenging. We have partnered with School is Easy to help reduce the stress our children feel and help them meet their potential!

### **Happy, confident learners**

School is Easy believes every child deserves the opportunity to become the hero of their own story, whether that's on the sports field or in the classroom. We understand how fundamental it is for parents and coaches to see children grow, with the confidence that academic and sporting achievement provides.

### **Tap into their potential**

At School is Easy every child is a hero, regardless of their background or ability. Our team of amazing tutors provides personalised one-to-one academic support giving young people the freedom to enjoy sports without worrying about their studies.

### **Support for the whole club**

Through our partnership with **School is Easy** they will provide a rebate to our organisation for each child that receives tutoring services.

**To help your team become the hero of its own story, contact School is Easy today (see contact details below) and mention this partnership program.**
